

CORRUGATED ROLLS

Transportation protection in rolls

FSC® CERTIFIED & MADE IN GERMANY

The particular strength of corrugated rolls lies in their flexibility in terms of unlimited applications. You can choose from a variety of papers, grammages and corrugation types for outer covering, corrugated webs and inner covering, depending on your packaging requirements. We can provide you with corrugated rolls in a variety of lengths and widths.

Application options (depending on the basic material):

- Packaging for all shapes and sizes
- Intermediate layer
- Surface protection
- Lining of all kinds of containers
- Cushioning material

- A variety of lengths and widths
- Rolls and pre-cut sheets
- Eco-friendly recycling qualities, FSC® certified (FSC® C151439)
- Close or individual creasing
- As an automated solution, our VariProtect® 800 and 1,200 cutting system enables you to process corrugated rolls on site to create individual formats
