**TECHNOLOGY FOR
ECO-FRIENDLY PACKAGING**

INNOVATIVE TECHNOLOGY FOR YOUR PACKAGING PROCESS

Filling and cushioning systems for cardboard boxes

When it comes to environmentally friendly packaging and transportation protection for your products, Papier Sprick provides the ideal solution for every need. We enhance your logistics process by offering you innovative system solutions designed for use in securing fragile and valuable products within boxes. The SpeedMan® and PaperJet® systems impress through their easy operation, high level of productivity and efficiency. Particularly flexible and compact, they can be individually integrated in every packing station.

ComPackt® paper

100 % recycled paper protects the environment & resources

Eco-friendly SpeedMan® and PaperJet® filling and cushioning paper is a Blue Angel award winner and certified by the FSC® (FSC® C151439). It consists of 100 % recycled paper without addition of virgin fibres, optical brighteners or refining agents which are harmful to health. Consistent use of 100 % recycled paper preserves and protects our forests and waters. When compared to virgin fibre paper production, our products save over 70 % of the water, 60 % of the energy and 100 % of the wood required while, additionally, generating considerably lower CO₂ emissions.

Your one-stop provider – Made in Germany

Our production conserves resources and is realised exclusively in Germany to the latest technical standards – with the assurance of ISO 50001 certification.

Automatic cutter for rolled products

The fully automatic VariProtect® cutting system allows you to cut corrugated rolls and packaging paper in freely selectable lengths and to the dimensions you desire. Use only as much material as you really need, there is no need for cutting and the flexibility allow the user to produce any length desired. VariProtect® is conceived for web widths of up to 800 mm and, thanks to its compact design, is an extremely space-saving and flexible solution.

Made in Germany

VariProtect® 800

Cutting

approx. 0.9 m/s,
up to 30 cuts/min.

Corrugated cardboard and paper in different
qualities, height up to approx. 4 mm

Transportation protection in roll format

We produce eco-friendly corrugated rolls and packaging paper in a variety of lengths and widths for the VariProtect® which are ideal as intermediate layers and for covering products, as protection against damp and for surfaces which are highly susceptible to scratching. All materials are FSC-certified (FSC® C151439).
