BLAUER ENGEL

SPEEDMAN[®] CLASSIC

**THE UNCOMPLICATED MANUAL
FILLING SYSTEM**

SIMPLE ECO-FRIENDLY PACKING WITHOUT POWER

SpeedMan® Classic – for ergonomic integration directly in the packing station

The SpeedMan® Classic is the practical paper dispenser from the SpeedMan® system family. It can be individually adapted to your packing station, allowing you to assume a perfect working position and pack filling and cushioning material directly into the carton. The SpeedMan® Classic is a power and maintenance-free solution, so disruptions are removed from the packaging process. Operation is easy. Simply pull out the required amount of paper (a Blue Angel award winner), tear off and fill the package – and the job is done.

The filling volume achieved with the Speedman® Classic is equivalent to approximately 70 times the original volume. This saves storage space and packaging costs. The SpeedMan® Classic can be employed to pack anything. Whether large, small, heavy, light, thick, thin or fragile – your product is securely packed with eco-friendly recycled paper.

Your one-stop provider – Made in Germany

Production of the system and paper conserves resources, conforms to the latest technical standards and is realised in Germany with the assurance of ISO 50001 certification.

100 % recycled paper

SpeedMan® paper is a Blue Angel award winner and certified by the FSC®. It consists of 100 % recycled paper with no added virgin fibres, optical brighteners or refining agents which are harmful to health.
