

SpeedMan

SPEEDMAN[®] PRO
THE ALL-ROUNDER IN FILLING

HIGH FILLING VOLUME AND INTUITIVE CONTROL

SpeedMan® Pro – exceptionally quiet, quick and reliable

The SpeedMan® Pro is a practically maintenance-free, patented system for rapid void filling in cartons and packages. Paper delivery is continually adjustable, enabling achievement of different operating speeds. The system is ergonomically integrated in the packing station, enabling direct filling of the carton with the voluminous paper tube.

The filling volume achieved with the Speedman® Pro is equivalent to approximately 70 times the original volume. This saves storage space and packaging costs. Machine start-up is child's play, with operation made easy through a foot pedal. A pivot arm or a variety of different frames enable space-saving integration of the SpeedMan® Pro in the packing station.

Your one-stop provider – Made in Germany

Production of the machine and paper conserves resources, conforms to the latest technical standards and is realised in Germany with the assurance of ISO 50001 certification.

Technical data

System

Length: approx. 820 mm
Width: approx. 350 mm
Height: approx. 470 mm
Weight: approx. 14 kg
Feed: 0.1–1.6 m/s,
continuously adjustable

Discharge height:

Variably adjustable

Noise level:

< 73 dB (A)

Stand variants:

Roll frame
Floor frame
Table frame
Pivot arm

SpeedMan® paper

Grammage: 70 or 90 g/m²
Basis: 100% recycled paper
Weight: approx. 11 kg per roll
Delivery unit: 33 rolls on a pallet
Environmental certificate:

Blue Angel

FSC® seal (FSC® C151439)

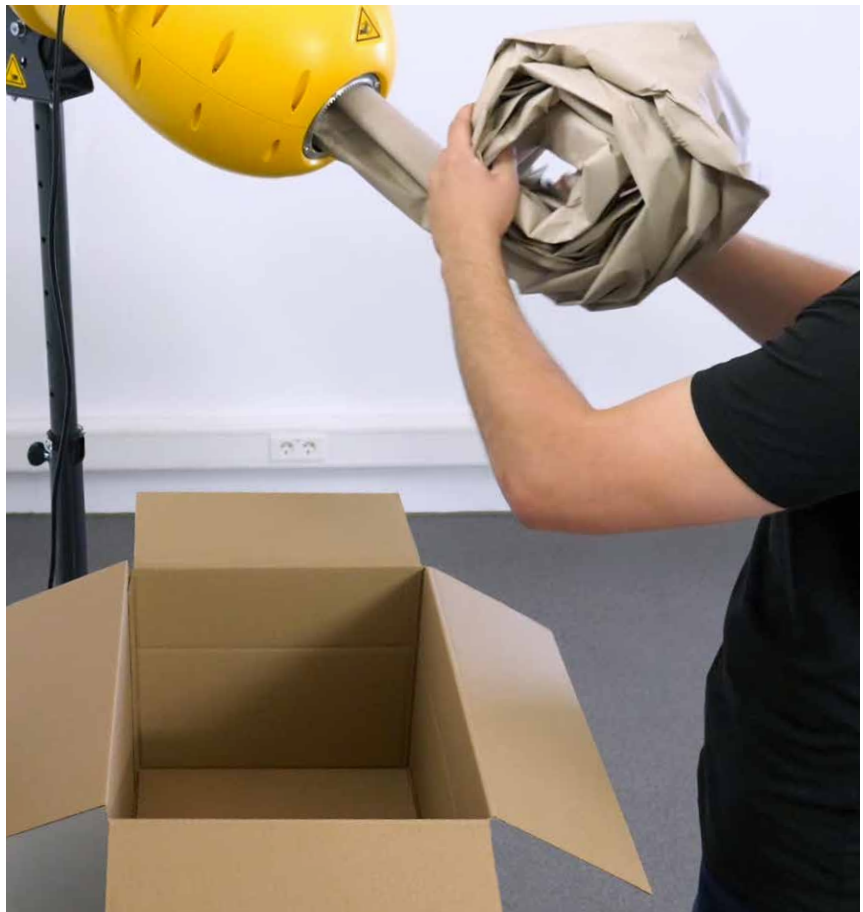

Country of manufacture

Paper/Machine: Germany

100% recycled paper

SpeedMan® paper is a Blue Angel award winner and certified by the FSC®. It consists of 100% recycled paper with no added virgin fibres, optical brighteners or refining agents which are harmful to health.

SpeedMan® rolls made of 100% recycled paper
